EXPERIENCE

•Poash

Sep 2020 - Feb 2021

Co-founder

Srinagar

- About - In an attempt to innovate the way the we give, I and two others tried to make a single online platform for all the charities in Kashmir. **I developed an extensive database of 300+ charities using Excel.**
- Role - I was responsible for the development of a mobile application for Poash. **I learnt using Android studio and attempted to create a mobile application.**

PERSONAL PROJECTS

–Movies API

Full Stack

- * Tools & technologies used: Java, SpringBoot, MongoDB, React.
- * I worked on the backend part of it, in which you can look for the movie details and give a review of the same.

–Live Crypto Prices

Web Scraping

- * Tools & technologies used: Python, BeautifulSoup, Selenium, Pandas, Seaborn & Matplotlib.
- * Scraped **100** pages data from a website using **Beautiful Soup, Selenium, and Pandas** libraries of Python and created a .csv of data

–Tic Tac Toe

Android Development

- * Tools & technologies used: Kotlin, Android Studio, XML
- * Designed a two-player Tic Tac Toe game, wherein both players play the game sequentially until one of the players wins.
